# THE DUNE

101

It's **your** home

## Why compromise when you can afford to reach higher?

You're going to spend a lot of time in your home. You'll eat there, sleep there, work there, play there and entertain there. So make sure you love living there. Build with someone who'll make the most of every square metre. Someone who believes that building on a budget shouldn't mean one compromise after another. Someone like 101 Residential - Scott Park's innovative building company.

### More than you expect for less than you would imagine.

Our customers are always surprised when they discover how much home we can build for their budget. Our two-storey homes for example, cost as little as many single-storey homes on the market. And there's no compromise in quality.

### How do we do it?

At 101 we have decades of experience and we've learned how to make the most of every budget. It's not about cutting corners - far from it. Our homes are finished to a standard you'd expect to pay a lot more for. It's all about smart design solutions that maximise your space, and minimise your spend. We also have Scott Park's considerable buying power behind us, and when we save, you save.

### A unique home within your reach.

While other builders limit your freedom to create something unique, we build flexibility into our process. You can choose a configuration that fits your life downstairs, and add your own special sanctuary upstairs. In other words, build with 101 Residential and put more of you into your home.

## Expect more:

- Choose from a range of homes to suit your style
- Expand upwards with a cost-effective two-storey home
- Decide what size and shape you want your second storey to be
- Select a storey at the front of your home, at the back or both
- Maximise the configuration to suit your needs

101 Residential Display Home located at
